ARTISTIC SERIES TRADE MARK

The Eiger is one of the prominent peaks in the Grindelwald district of the Bernese Oberland. It rises to a height of 13,040 feet and was first ascended by Mr. Charles Barrington in 1858. It is a difficult climb, but the prospect from such an altitude is very fine. A good view of the Eiger is obtained from the Jungfrau Mountain Railway which conducts tourists into the heart of the Jungfrau.
